Richard Starkings, Joe Kelly : Elephantmen: Mammoth Book 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Elephantmen: Mammoth Book 1:

5 of 5 people found the following review helpful. An excellent and affordable collection of Elephantmen.By EilifReally inventive and well-done comics. Picked this one up after reading a friend's Hip Flask book and was not disappointed. I'm no comics expert, but the art is spectacular and the stories are compelling. Unlike some other XL size comic collections that I've purchased, this one is in full color.By far the most accessible and affordable way to be

introduced to the Elephantmen/Hip-Flask universe. I am eagerly awaiting volume 2.0 of 0 people found the following review helpful. Great book! Bad Binding...By Anthony APros:- nice blend of pulp and sci-fi- artwork ranges from serviceable to good (different artists)- lots of action- good story so farCons:- The binding is absolutely horrible. I take very good care of all my things and during my first read through the first 10 pages just came out of the binding.Final Verdict:This is a great book that I would highly recommend. However the binding is so bad I had to take away a star.

This MAMMOTH volume collects 18 issues of Elephantmen, including the Elephantmen: War Toys mini-series and one-shots!
