Richard Pini, Wendy Pini : ElfQuest Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised ElfQuest Book 2:

1 of 1 people found the following review helpful. Once you read this book you will want to get the rest of the series!By Sylvia M. Davis-RogersAside from JRR Tolkien's The Hobbit and Lord of the Rings, this series of graphic novels are the best books ever written in my opinion. Not one person that I have shared these stories with said they did not like them. I have been collecting Elfquest books for over 20 years. They cannot write them fast enough for me. The stories are rich with emotion, character and each page is full of life with color and it is very easy to bond with the characters in these stories. I especially love the wolves. Great story line and great art work! Not recommended for under age children. I think once you buy and read the first book, Fire and Flight, you will be eager to purchase the next and the next. I could not put It down from front to back until I finished the whole book. I just could not wait to get the next book.1 of 1 people found the following review helpful. A must read for new an old fans alikeBy FletcherThe third in a collection of 4 (as of the time of this writing) this hardbound collection is a must have for all fans of the Elfquest comic series. Reprinted in its original full size and in full color, the hard bound binding makes this particular collection a must have for collectors who wish to share the Elfquest story with future generations.Elfquest is a comic originally created in 1879 which focused on a tribe of fierce and strong elves called the Wolfriders. Richard Pini crafts an amazing story focusing on Cutter, the Chief of the Wolfriders as he and his tribe are forced to flee their ancient

home and in doing so discovers more about himself and his race than he ever dreamed possible. Wendy Pini draws for us a unique world filled with elves, trolls, faeries, and humans and breaths life and novelty into them still unseen in most of the fantasy genre since. Elfquest - Archives, Volume 3 focuses once again upon Cutter on his quest to find more Elfkind. But does Cutter and his tribe of Wolfriders find more than he can handle when they come across the elves who call themselves The Gliders? Are these the new elves the ancient High Ones of old who brought their race here, or is there something dark and sinister lurking in the depths of the Blue Mountain? Other volumes in the series include: Elfquest Archives Vol. 1 Elfquest: Archives, Volume 2 Elfquest - Archives, Volume 4 (Archive Editions (Graphic Novels)) 0 of 0 people found the following review helpful. Good purchase. By Loralie Wilson Excellent transaction. Excellent condition. Perfect all around. A great item at a fantastic price. Words cannot describe my experience on as of late. The item bought was in excellent condition and served its purpose well. Nothing can compare and have nothing ill to say of it, nor do I have anything else to mention that needs concern. Highly recommend for anyone who shops on the internet! is always the best!
