Adam Warren : Empowered, Vol. 3 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Empowered, Vol. 3:

0 of 0 people found the following review helpful. Enjoyable and Empowering By Jennifer L. Morris I heard about Empowered through a youtube called CBG17 (Comic Book Girl 17) and her assessment of Adam Warren's titles are spot-on. I'm not into any of the Marvel or DC series but do enjoy Buffy, Angel, and the Sandman graphic novels. It's a great read with good development of characters, great art (seriously this guy knows how to draw the female form to be attractive without being vulgar), and a good plot that progresses and transitions well from one chapter to the next. You might think from first glance that the main character is objectified because of the supersuit she wears or the many, many times she's tied up, but that's the irony of Empowered. She really is a role model and one you quickly can support

and root for. A must read. The only downside is to think of the series like Game of Thrones. These titles come out very slowly, so take your time. I blew through the whole series in a week and now have to wait another year for #8 to come out! 0 of 0 people found the following review helpful. Things are happening! By ChibiNeko I got this at the same time as I did volume 2, so I dove into this immediately after finishing the previous one. (Now I just have to wait for my other volumes to get here!) The artwork in this is just as good in the previous volumes, so if you've been a fan of the artwork then you're going to love this volume. Where this volume really shines is in the further character development. If you've been waiting for lots of great action scenes, this is the volume you'll definitely want to read. Emp has a lot of kick butt scenes and the volume ends on a pretty awesome one. I can't elaborate without getting too spoilery, but it's probably her coolest one so far and it emphasizes the mystery of the suit and what it's capable of doing. We get a little explanation towards the suit's tendency to short out on Emp as well as more background on Thug and Ninjette. It's a really great volume and it really makes me impatient for the next volume. This is one that you definitely have to get, although unlike the previous volume it's not one that you could easily and instantly get into without having read anything prior. You could if you really wanted to, but you'd be missing out on quite a bit of story. 0 of 0 people found the following review helpful. Done By Alan finish my collection. Love the series.

As if life as an often-struggling superheroine weren't already hard enough, now costumed crimefighter "Empowered" discovers that another female superhero is ripping off her distress-prone persona - and cashing in, big-time! Even worse, her relationship with live-in boyfriend (and semi-reformed Witless Minion) Thugboy has run afoul of an extremely literal set of "power issues"! Worse yet, a singularly bloodthirsty and ruthless ninja clan is gunning - no, make that shurikening - for Emp's best friend and karaoke partner, Ninjette! Can our unlucky but still plucky heroine prevail over all these obstacles as well as further threats posed by foreign fanfiction outrages, her own supersuit's attempts to manipulate her self-esteem, and the revelation of (gasp!) her real name?
