Five Stars By Craig Small Good pace, sharp dialogue, interesting characters, good twists 10 of 10 people found the following review helpful. good sci-fi tale that follows the Millar formula By Frank L. Greenagel I Mark Millar has figured out his comic story (and movie story board) formula: quick, efficient world building; a small number of characters that fit into traditional archetypes; a bit of mystery regarding one of the central characters; a villain to despise; snappy dialogue; and a resolution within the last five minutes. This is labeled as "Book One," but I'm not sure where it can go from here. The story has been told. It is

entertaining. Stuart Immonen is a fantastic artist. He was tasked with drawing a variety of worlds and he was up to it. His splash pages are excellent.
