If you do then you'll love the second book to The New Bondage Fairies by the infamous Kondom. Warning this book is not meant for anyone under 18 and contains adult situations! The New Bondage Fairies book is a hilarious installation to the already famous, and well-known writer of the first installation to the fairy world. The book fallows the adventures, and bizarre situations of two forest fairies that help defined the forest along with the animals. Their names are Pfil and Pamila, who are both female fairies in love and worriers to the fairy race. Anyone who loves fantasy stories and amusing ending will enjoy this book.6 of 7 people found the following review helpful. They do it with anythingBy A CustomerBondage Fairies is up there with Secret Plot and Slut Girl in the best hentai (erotic) manga. And this one takes the prize story-wise. The scripts are very funny and hot, never getting boring or repetitive.

And the sex is hot! The two main fairies do it anywhere, anyway, with anything. If you're tired of seeing the girls do always the same plain stuff, in this series you'll be aroused. The flying beauties get it stuffed from behind and front, with not only the male genitalia but with all kinds of crazy things. Cockroaches, praying mantis, monsters, the grossest stuff... They do it and they like it. It's here, and you will love it.

Follow the further adventures of Pfil and Pamila as they patrol the forest - that is, when they're not getting down and dirty with each other or a host of amorous playmates!
