**Joe Tyler, Ralph Tedesco, Joe Brusha : Escape From Monster Island** before purchasing it in order to gage whether or not it would be worth my time, and all praised Escape From Monster Island:

1 of 1 people found the following review helpful. Great idea. Mediocre execution.By Matt SowdersFantastic idea but the execution left something to be desired. I thought you couldn't go wrong with a small group of mercenaries (think PREDATOR) landing on an island full of monsters! Predator meets Aliens meets King Kong. But the story was just mediocre. The characters weren't flushed out so I didn't really care when one died. I didn't really care for the idea of

Elves being on "Monster Island". Not LOTR Elves. More like Thor Dark Elves. Still.....The art was pretty good. The writing should have been better. I expected more.

Years ago, unbeknownst to the public, the U.S. government built a walled city on an abandoned island in the Pacific Ocean. The purpose of this city was to house an experimental testing facility for a multitude of monsters that had been captured over the years. In 2012 disaster struck and the island was evacuated and is now overrun by a multitude of different terrifying creatures and beings. But something extremely valuable was left behind and some very rich people want it. And the only way to get what they want is by sending a mercenary unit into the most dangerous place in the world: Monster Island. Collects Escape From Monster Island #1-6
