Chris Claremont, Alan Davis, Michael Higgins : Excalibur Epic Collection: The Sword is Drawn (Epic Collection: Excalibur) before purchasing it in order to gage whether or not it would be worth my time, and all praised Excalibur Epic Collection: The Sword is Drawn (Epic Collection: Excalibur):

time. By Redd06 Some of Claremont's best work. This takes place shortly after the X-Men were "killed" (again) and a straggler team sets up in London. I found myself enjoying the stories even 20 years later as they do not feel dated or tie themselves to a particular event or year. The humor adds a much needed finesse to the series, and the characters do not dive into a morose or somber mood. Highly recommended. 0 of 0 people found the following review helpful. Five Stars By G. Tyacke I wish they'd make a movie of these guys, they rock! 0 of 0 people found the following review helpful. Five Stars By Rogue Elf A great collection of epic stories.

A legendary new X-team is born! Meet the United Kingdom's champion, Captain Britain, and his paramour, the metamorphic Meggan! They'll band together with former X-Men Nightcrawler and Kitty Pryde when Gatecrasher and her Technet target Rachel "Phoenix" Summers! Fighting to uphold Xavier's dream, UK style, the five heroes form Excalibur! From their lighthouse base, they'll tackle the ferocious Warwolves, the unstoppable Juggernaut and Mojo mayhem! Things get wild with Arcade, the Crazy Gang and the X-Babies, and really heat up as Excalibur is drawn across the Atlantic to an Inferno raging in New York!
