After going back and reading the Dark Phoenix this new chapter of the Extraordinary X-Men feels like a natural progression from the old world into the new. Knowing the dark past of old man Logan and Miss Marvel adds the necessary layers required to truly appreciate this newly founded team but even without it it's always

fun seeing the X-Men be the true protectors they were always meant to be. I would recommend reading Old Man Logan and The Dark Phoenix Saga before hopping into this one otherwise the reunions won't be as significant but overall a good read. 1 of 1 people found the following review helpful. Loved it. By Chris Maida One of the best books on the market. While I continue to hope Jean Grey and Logan return, the younger Jean, and Old Man Logan are enjoyable, and solid characters. Love the team as a whole, and would love to see this series continue for years to come. 0 of 0 people found the following review helpful. Awesome Stuff! By Kyris Fantastic art and a great story!! I highly recommend this title. Now hopefully they'll keep the sane team together for a long time
