Jeff Lemire, Rick Remender : Extraordinary X-Men Vol. 2: Apocalypse Wars before purchasing it in order to gauge whether or not it would be worth my time, and all praised Extraordinary X-Men Vol. 2: Apocalypse Wars:

0 of 0 people found the following review helpful. Two Stars By James Flowers I This story was terrible. 0 of 3 people found the following review helpful. Five Stars By Matt Pellizzon Liked it 1 of 1 people found the following review helpful. More like ordinary X-Men By Spidey Victor Ibanez's art is awful. I'm not sure how he got to be the secondary

artist on this book. Everyone looks like they've been living in a Russian Gulag. The first 2 issues are pretty depressing. I still don't get the threat of the terrigenesis cloud. Just watch the weather report and leave if it's coming. Problem solved. Colossus and his new team get teleported to the far future where Apocalypse rules. I like how the story allows some of the teenage X-Men to amp up their powers. Anole and Glob are fun characters and need to be used more. Humberto Ramos art is even sloppier than usual in this volume. Maybe it's the new inker but the art isn't as sharp and suffers from it.

Extraordinary adventures demand Extraordinary X-Men - and no frontier is too wild for this crew! While one team of X-Men stages a daring rescue mission in Weirdworld, another delves deep into the psyche of their own teammate! Weird is nothing new for hardened mutants like Old Man Logan, Colossus, Iceman and Magik - but can Storm and Jean Grey ever be prepared for what lies in the mind of Nightcrawler? Then, it's an All-New take on a good old-fashioned X-Men adventure in time. The fate of mutantkind is more fragile than ever, and now it rests in the hands of one of the X-Men's most formidable adversaries - the immortal Apocalypse. To save the present, the X-Men race into a perilous future. But can they outrun Apocalypse and his new Horsemen? COLLECTING: EXTRAORDINARY X-MEN 6-12
