**Jody Houser : Faith Volume 1: Hollywood and Vine** before purchasing it in order to gage whether or not it would be worth my time, and all praised Faith Volume 1: Hollywood and Vine:

Derby Faith: Hollywood and Vine was a strong outing from writer Jody Houser and an art team led by Francis Portela and Marguerite Sauvage. The comic garnered some media attention, mostly over the plus-sized superheroine as the lead character, but there is a far more to the story than just that. Faith--better known to Valiant fans as Zephyr from her

time in the Harbinger comics--is a very strong and relatable lead character. She's upbeat, positive, comfortable with herself and Houser does a fine job in guiding her through some exciting adventures and some fun scenes when the mask (or wig in this case) is off. Houser is sharp enough to offer a nice jumping on point so readers with little or no background on Valiant comics can enjoy this collected miniseries. Faith offers a nice change of pace from the legions of stories featuring dark, brooding anti-heroes. Highly recommended. 2 of 2 people found the following review helpful. A Great Character In A Great Book. By Joshua Rathbun This was a lot of fun to read. Faith is awesome and has a great sense of happy exuberance about her. She's so much more than just a superhero. I was not too familiar with Jody Houser's work but she wrote an incredible comic about a great female character that anyone can enjoy. The art is tops, too. Francis Portella and Marguerite Sauvage are the art team and created a really cool, visual book. Highly recommended. 0 of 0 people found the following review helpful. Geeky Super Heroine of My Dreams By Amanda WI love the Faith comics by Valiant! She is a great character that you will fall in love with. She is a geeky girl who is into firefly and other popular geeky stuff. She is also the first plus sized female super hero character. I honestly was worried that she would be the butt of every fat joke and that the comics would focus more on her weight than anything. However, they instead made a lovable character who is a cool super heroine who just happens to be fluffy. I applaud the writers for this. I'm also just glad that a different body type is being represented in comics. If you haven't read the Faith comics yet then check this out. You'll get a kick out of all of the geek culture references she makes and really root for her! She makes her first appearance in the Harbinger comics by Valiant. If you want to get her back story and enjoy a really great additional comic series, check that one out too.

**VALIANT'S MOST DEMANDED HERO STEPS OUT OF HARBINGER AND INTO AN ALL-NEW ADVENTURE!** Orphaned at a young age, Faith Herbert - a psionically gifted "psiot" discovered by the Harbinger Foundation - has always aspired to greatness. But now this once ordinary teenager is taking control of her destiny and becoming the hard-hitting hero she's always known she can be - complete with a mild-mannered secret identity, unsuspecting colleagues, and a day job as a reporter that routinely throws into her harms way! Well, at least she thought it would. When she's not typing up listicles about cat videos, Faith makes a secret transformation to patrol the night as the City of Angels' own leading superhero - the sky-soaring Zephyr! But flying solo is going to be tougher than she ever thought when Zephyr uncovers a deep-rooted alien conspiracy. Two-bit burglars and car thieves are one thing, but when the world needs a hero to stave off an full-blown extraterrestrial invasion, will Faith find herself in over her head ready for her biggest challenge yet? Rising star Jody Houser (Orphan Black) and explosive artists Francis Portela (Green Lantern) and Marguerite Sauvage (DC Comics Bombshells) pilot a new chapter for the high-flying hero that People Magazine calls "a superhero we can all admire." Collecting FAITH #14.

From School Library Journal Gr 7 Up Faith Hebert, a psiotic (or person with superpowers) known as Zephyr, has relocated to Los Angeles in search of a fresh start. Once part of a group of psiotic humans (Harbinger Renegades), she now works as an unassuming entertainment blogger, Summer, eager to make her mark (as a journalist and superhero) yet conflicted about attracting attention. When her telekinetic powers (and the hacking ability of a friend) unearth other inactive psiotic beings who have mysteriously disappeared, Faith investigates. This is a modern twist on the classic superhero tale. Faith doesn't have the typical superheroine body type, dismantling stereotypes about what it means to be superpowered. While the plot doesn't deviate too far from the average superhero story, Faith is a self-aware protagonist, commenting on the common superhero tropes, and this selection is sure to spark conversations about body image and women in comics. VERDICT Recommended for all graphic novel fans and those interested in body positive characters. Tamela Chambers, Chicago Public Schools, IL KIRKUS - "Fat and fierce superhero Zephyr-aka Faith Herbert-leaves the Harbinger Resistance to fly solo. On her own in LA and with her secret identity blown in a previous adventure, blonde, white Faith goes Clark Kent with a pair of glasses, a red wig, and a new name-Summer Smith-to complement her role as a mild-mannered content writer for online outlet Zipline. She works hard to get over ex-boyfriend and rising reality TV star Torque and continues to fight crime. Investigating the disappearance of a young black teen, a possible psiot like her, soon leads her to the evil Vine, who are experimenting on psiots as part of a plot to (of course) take over the Earth. Faith is an enormously likable character, an unapologetic geek and fangirl. Dialogue and internal monologues are both strong in banter ("I can do this," she thinks to herself as she prepares to write a puff piece on Torque. "I'm a freakin' superhero") and reflective of an unflinching moral code. Portela's and Sauvage's classic superhero stylings accommodate Faith's size with ease and respect. Readers unfamiliar with previous Harbinger storylines will flounder a bit as they catch up, but the willingness to suspend disbelief and go with the superhero flow will take them far. This volume compiles the first four issues of her solo comic. You go, girl. (Graphic fantasy. 12 up)"
