**Jonathan Hickman : Fantastic Four by Jonathan Hickman - Volume 6 (Fantastic Four (Marvel Paperback))** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fantastic Four by Jonathan Hickman - Volume 6 (Fantastic Four (Marvel Paperback)):

2 of 2 people found the following review helpful. Decent conclusion to Hickman's FF runBy 1AnimeFanPOSSIBLE

SPOILERS, although I'll try to focus more on general themes of the book.-The first issue of this volume consists of Reed and Nathaniel taking 1,000 year jumps forward in time to try and learn if the Future Foundation is successful or not. Very interesting, kind of a sad conclusion.-The second issue details the origin of 1 of the members of The Council of Reed Richards. Interesting Elseworlds-style tale.-The third issue sees the Fantastic Four shrinking down and going inside of a longtime character in order to remove a dangerous tumor.-The next issues show Reed, Sue, and the Future Foundation students on a journey to Wakanda. While there, they have to deal with a horde of mummies sent by the Egyptian God Anubis. Also, Reed and T'Challa enter the Wakandan Necropolis on a journey which I suspect may have implications for the ongoing "New Avengers" currently being penned by Hickman.-The next part of this volume features The Defenders of Tomorrow and their journey for a new home world.-The next issue showcases the Wizard-led A.I.M. organization buying the island of Barbuda. The Fantastic Four (and Spider-Man) are sent by the U.S. President on a diplomatic mission. Events of these issues continue into the Marvel NOW! Secret Avengers series.-The final part is a follow-up on Doctor Doom after his sacrifice to stall the Celestials. We get a disturbing idea of what the good Doctor's ideal world would be like. This issue also plots a new direction for Nathaniel and Future Val. This was an enjoyable read. Hickman put a lot of work into tying up loose ends ahead of handing the FF over to Matt Fraction. If you have been following Hickman's run up to this point, there is no reason not to buy this volume. 0 of 0 people found the following review helpful. Long Live the Fantastic four! By JP Fish Hickman's style might not be for everybody. But he spun a great yarn and did the FF proud all the way to the end. Great read. Great art. Long live the Fantastic Four! 0 of 0 people found the following review helpful. A great wrap up. By Ryan Read Hickman wraps his run on FF on a great note.

No matter the obstacles, the Fantastic Four deal in miracles. Whether it's a trip thousands of years into the future or past, an expedition to the fantastical African nation of Wakanda or a mission to help one of their oldest friends, Marvel's First Family strives against the unknown and the unthinkable. And now, the stakes are higher than ever. The FF must save the world 4,000 years from now, defeat Egyptian zombies, battle a future Hulk and even pierce the veil of death itself. And they'll need every bit of cunning and strength they have to win the day! COLLECTING: Fantastic Four 605.1, 605-611
