One the best runs Marvel ever released, with Lee and Kirby firing all radioactive cylinders. But the gutter loss in this edition is ridiculous, making it a very cumbersome and annoying reading. I recommend the Fantastic Four Masterworks or Omnibus editions instead. A real shame.

These epic collections are the best! With this volume you get more of the Stan and Jack craziness we love. Buy it and and enjoy it! Marvel should have done these a long time ago but I am so glad we have Epic collections now!

Lee and Kirby set the standard for out-of-this-world imaginative adventure and launched the Marvel Universe in the pages of Fantastic Four. Now, with all the MU super hero players in place, it's time for the FF to run the gauntlet. The Thing throws down with the Hulk in a battle so huge it takes the combined might of the FF and the Avengers to stop it! The Sub-Mariner makes a play for Sue Storm! The FF tangle with the X-Men! Nick Fury drops by in the story that set the table for "Agent of S.H.I.E.L.D."! And even Doctor Strange makes an ever-so-astral appearance!
