summoned heroes from history will face off. The last magi and hero pair left standing will be able to claim the grail and have their wishes granted! In a darkened shipyard, the first large battle of the war begins, with honorable Saber and Lancer crossing blades. Their fight draws the attention of other more nefarious participants, and new heroes join in the fray. Rated for ages 18+/For mature readers only.

"The character developments and interactions in the series are enjoyable, especially watching the vastly varying natures of the relationships between Masters and Servants and the way they develop over the series, from the thoroughly disgusting degree to which Ryunosuke and Caster become utterly in sync to the troubled relationship that Lancer has with his Masters to the great, wholesome bond which forms between Waver and Rider." --Anime News Network
