The artwork is perfect for the story and matches the tone throughout. The story itself is fun and action packed while having serious moments and sad ones. The description on the page is accurate and giving away any more would spoil it. But I would definitely recommend

this series to a friend or a well read lizard.0 of 0 people found the following review helpful. great storyBy Danja F.I love scifi and I figured this would be a cheesy, fun read. It is, but it's more than that. This book made me fall in love with Fear Agent, which is beautifully drawn, well-written, and often very thought provoking. And he does stuff like fight alien orcs with a huge pipe wrench too.0 of 0 people found the following review helpful. Lost in SpaceBy Kenobi19O got this after reading the first TP of Black Science. I liked but the story seeme dto be a little all over the place for my taste and then that ending. I will be getting the next one to find out what happens.

When down-and-out alien exterminator Heath Huston stumbles upon an extraterrestrial plot to commit genocide against the human species, he must put down the bottle and resume his roll as a peacekeeper . . . as the last Fear Agent.
