Good Final Hal Jordan Story By David Suter Hal Jordan is the Green Lantern that we all remember from our childhood as he was THE Green Lantern from the 60s to the mid 90s. Hal had been the greatest of the Green Lanterns but when his home town was destroyed he went over the edge seeking

revenge. In the Final Night the rogue Hal Jordan storyline comes to an end. The story is about a great cosmic entity that devours Stars and has come for Earth's Sun. All of Earth's greatest champions unite to help the sun fight off the entity to no avail. Several attempts are made with no progress being made against the Sun Devourer. Many believe that this will be the end of the world as Earth enters its Final Night. Could a fallen champion return and save the day? That is where Hal Jordan comes in. This book is hurt as this was a major storyline that ran through the individual titles of the DC super heroes and therefore a lot of the story within the trade is lost to the titles that are not reprinted here. The story does not really pick up until Hal Jordan makes his appearance towards the end. So while the story may be somewhat lacking in completeness it is a very dramatic piece as many of the characters realize that for all of their powers and abilities they are helpless against this cosmic threat. Get this if you are a Hal Jordan fan and want to see his return to being the hero he was always meant to be. 0 of 0 people found the following review helpful.
