**Akira Hiyoshimaru : First Love Monster, Vol. 1** before purchasing it in order to gauge whether or not it would be worth my time, and all praised First Love Monster, Vol. 1:

3 of 3 people found the following review helpful. So cute and i dunno how to feel...By Diana Bradley At first i felt a little iffy about the whole premise, well, to be honest i'm on the second volume and i'm still feeling a little weird but the whole thing is just so captivating, you don't want to look away, you just want to keep reading to see what will happen next. To be honest, i'm hoping there's a secret somewhere down the line saying that Kanade isn't actually a fifth grader or at least not that age. That would lift my guilt about feeling attracted to him, lol. The guys in this manga

are gorgeous and Kaho herself is BEAUTIFUL! It does bother me how down she is on herself all the time, sometimes it gets a little long in the tooth and it's just like seriously? But ehhh...it's not that big a deal. I recommend it unless the whole age thing bothers you, which would be understandable, but just to help you out, it's the guy on the cover that's supposed to be the fifth grader. So, just mull that over. 0 of 0 people found the following review helpful. A series that may seem taboo. By Muffins This is a series I wasn't sure I was going to enjoy. It deals with things that most people are uncomfortable with. A fifth grader who "dates" a high school girl. This can be seen as creepy and taboo. However, after reading the first volume, my views changed slightly. This manga doesn't take itself too seriously and really does offer a few good laughs. It's not perverted despite the age gap. It's charming and definitely something I can see growing on me after the shock of the age gap. Akita Hiyoshimaru draws the fifth grade boy to look much older than he really is and Kaho to look much younger. It's definitely cute how the relationship dynamic plays out, especially since her "boyfriend" thinks and acts very much like the little boy he is. It's a bit unique in that aspect and should definitely be given a chance if you can get past the age gap. This series is also being made into an anime so it is popular enough in Japan to get an adaptation. Just another thing to look forward to! 0 of 0 people found the following review helpful. What even is this?! By Yukino Takahiro Wtf is this series XD I read book 2 and I'm both questioning why I continue reading it, but at the same time I can understand why I keep reading it. Plus find the artwork quite pleasing.

When you find out who I really am...if you can still say you like me, then I'll be your boyfriend.

About the Author Akira Hiyoshimaru is the creator behind the manga series First Love Monster.
