Frank J Barbieri : Five Ghosts Volume 3: Monsters and Men before purchasing it in order to gage whether or not it would be worth my time, and all praised Five Ghosts Volume 3: Monsters and Men:

2 of 2 people found the following review helpful. As good as action/adventure gets...By JonnieSparko There are not many comics out that have the feeling of Five Ghosts, and they come by very seldom. This is the type of book that doesn't get caught up in continuity or too much back story, things are revealed little by little and as they need to be. Action scenes don't really need narration when done right and here is as fine example as they come, making this book

a fast page turner. I'm not saying it's a bad thing or a good thing, but this book reads fast. The story catches you from the first page and even if it did let go, you won't want it to. The writing and art are happily married, with a tight plot, memorable characters, and mesmerizing images. When you're done with volume 3, keep looking out for volume 4. Great reading! My highest recommendation for this volume and the two previous ones if you didn't already have. 1 of 1 people found the following review helpful. Five Ghosts Continues to Be Great By Zac Hanscom Five Ghosts, Vol. 3: Monsters Men sees Fabian and his five ghosts tracking down Sebastian, who was kidnapped by Nazis. The trail has led them to Romania, where a cursed village is experiencing a plague. Worse yet, there are monsters in the nearby woods. Could the two be related? This story is detailed in a five-issue arc. After that is a pair of comics, The Demon and the Dreamstone and Boats Against the Current. I liked Vol. 1 so much that I ordered Vol. 2 before I even finished Vol. 1. It's been a long wait for Vol. 3, but I'm glad it finally came out. From the opening pages, I knew I was going to like it. The pacing is phenomenal, and the artwork is reminiscent of Kevin O'Neil in The League of Extraordinary Gentlemen. In fact, there is a character from Book II of that series, along with a Masonic reference that tickled my fancy. The two extra comics are somewhat forgettable, but that doesn't keep this from being an excellent title. ***3/40 of 0 people found the following review helpful. Not the best By sharkshadow96 Not the best story-arc in in this series, but has me want to keep on reading it

The critically acclaimed literary pulp adventure continues! Fabian Gray journeys to Eastern Europe on a quest to save his closest ally while battling his own inner-demons Collects Five Ghosts #13-17 and Five Ghosts: Special #1.
