Fantastic Studies of the Female FormBy HwangFrank Cho: Women-Selected Drawings Book Two gathers some of Frank Cho's finest drawings; some high lighting the models upon which he based the drawings, featuring details about the models, followed by renderings in black and white followed by what represents an attempt to show how the transition is made into color, as well as sketches made in pencil and those rendered in ink, by someone considered to be a rising star in graphic illustrations and constitutes a fine study of the female figure by an award winning artist; the finest black and white drawing with great detail which constitutes an excellent study in lighting, high lights and shadows being Seduction and the finest in ink being 50 Girls 50.Highly recommended.2 of 2 people found the following review helpful. Much Improved From 1.0By M. BergmanIt's a book

of pinup art. Could it sit comfortably next to Moran, Elvgrin, Vargas, Mozert, De Berardinis? Almost half of the book are color plates and that is a big improvement over the first book. Most of the color is digital by Nikos Koutsis, Nei Ruffino, Brandon Peterson, etc. The digital color is, for the most part, pretty average; not great, but not too bad either. One exception is "The Queen's Bath" with Brandon Peterson as the colorist. This is excellent and shows more attention to detail rather than simply using flood fills and gradients. But, truthfully, the best colorist is Frank Cho who has a few near the back of the book including a clean version of the cover which looks like it may have taken some inspiration from Gustav Klimt. All of the color plates have either the final pen ink version or a preliminary sketch. The sketches are all good choices. Yes, this book is two-thirds the size of its predecessor and if you prefer quantity over quality then this may be a factor for you. It wasn't a factor for me. There is no paper book cover on the hard bound edition which is a minor complaint and not worth knocking a star off. There is a forward by Geof Darrow (Shaolin Cowboy) which is amusing and gives the book a little more character. So I asked the question on how Cho's color pinups hold up next to other pinup artists... sadly, the digital coloring, with a few exceptions don't fare so well. Cho's own paintings, though, are just as good as any of the artists I've mentioned (although Olivia De Berardinis has a much broader vocabulary) and it was really nice to see some of that in this book. 0 of 0 people found the following review helpful. Amazing tutorial By RobTattoo Best comic style pinup tutorial that i have found i would recommend this for anyone who enjoys drawing beautiful women

Highlighting the latest covers, pin-ups, illustrations, paintings, and sketches by internationally renowned and Emmy Award-winning master artist Frank Cho, this book contains images of women in various states of undress and in full cheesecake glory.
