**Yusuke Kishi : From the New World, Volume 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised From the New World, Volume 1:

2 of 3 people found the following review helpful. MediocreBy Ron OThis just isn't what I had hoped for. The story appears that it will be pretty deep as there are many hints that they things the children suspect are probably true as there are scenes that hint that parents know much and aren't telling. This would have made for a good story over the series perhaps, but the problem for me was that I just couldn't get into any of the characters. I didn't really care for any

of them and that kept it from being a compelling story. There also appeared to be some errors in translation or poor writing as sometimes what the characters say is incomplete or just doesn't seem to fit. There are a lot of good choices out there, so I would recommend you take a pass on this one. 6 of 8 people found the following review helpful. Art is great, story is ok, unnecessary fan service. By Daveydoh This is was an okay manga read, I might get the 2nd volume as I don't like to judge just the first volume. I really liked the artwork and the story isn't to bad, I have so many questions and that's always a good thing. I didn't understand what everyone was talking about concerning the fan service, I mean it is two girls showering in the beginning, but I thought "That's it?" (It took me a considerably long time to finish this manga) once I finished and I got to the part that some reviewers have mentioned a big "Oh!" flashed through my mind "This is what they were talking about." I don't think the fan service is bad if there is a good story to it, or if it relates. I feel the artist may have felt the story was boring so why not add a little spice to it to get the readers to read more! The fan service towards the end did not relate to the story, it was like "Here's the story...with some scenes" I can understand if the story is about two lovers, but it wasn't. Supposedly the novel is really good and I hope to read it. I read some of the story and about the characters on wikipedia and I thought it was very interesting. Maybe if I'm bored I'll buy the 2nd volume/novel to give it a fair shot. 0 of 1 people found the following review helpful. Five Stars By Customer I love this manga!

Saki and her schoolmates enjoy what they consider normal lives in a peaceful provincial setting. Only their village cannot be of this era. Its customs differ from those of any known in modern day Japan. The landscape while familiar is also much more constrained than what modern day maps may exhibit. So when 6 friends embark on a journey of mental and physical training, this fateful journey will lead them to a series of mind-shattering truths-for these characters and for us as readers.

About the Author Yusuke Kishi was born in 1959 in Osaka. He graduated from Kyoto University with a degree in Economics. After working for a life insurance company for several years, Kishi started his writing career as a freelancer. He has twice won the Japan Horror Association Award, and boasts bestselling status in Japan with multiple works adapted to the screen.
