Yusuke Kishi : From the New World, Volume 6 before purchasing it in order to gage whether or not it would be worth my time, and all praised From the New World, Volume 6:

0 of 0 people found the following review helpful. A+++++++ Manga really enjoying it. By Daveydoh This is by far one of the coolest mangas I have ever read, very interesting, and very creative. The art is beautiful, the fan service fits the story perfectly. It explains a lot of it and it makes sense somewhat. I enjoyed this story and can't wait for Volume 7 to come out. It's a shame that the novel isn't in English. I would love to read it. 0 of 2 people found the following review helpful. Full of Twists By SariosGood series that continues to get more intense each volume. 1 of 1 people found the

following review helpful. "I do have your trust, do I not?"By Xyon McKellFrom the New World is a layered story building of events all the way back to the first volume. Don't start here - read from the beginning.Saki and company flee to the devastated remains of a once great city in search of a last ditch defense against the invading army and its fiend. Unfortunately there are some who think their allies might be more dangerous than facing their greatest weakness...Everything's coming together nicely in this penultimate volume. Long running themes and questions continue to have great impact and relevance, pushing and testing the characters in horrific ways. I have a pretty good idea what awaits next volume, but the series has surprised me numerous times before. Either way it should be a wild ride to the end. The style and atmosphere is as always - great art, brutal violence, excessive fanservice, and incredible tension.Overall volume 6 is a strong ramp up to From the New World's end next volume. As curious as I am to see how it all turns out, I will be sad to see this manga end.

From the New World is originally set in a Japan a millennium from now. Five teensSaki, Satoru, Maria, Mamoru, and Shunhave been born and raised in a tranquil town that can be described as a utopia overflowing with water and foliage. The world is ruled by people who have the "cursed power" or the "gods' power" of telekinesis. After a certain incident, Saki and the others come to realize the true nature of their world. Before long, they learn everything, including the bloody history that brought humanity to this state. The five throw themselves into life-threatening adventure and fight to protect friends and a world on the brink of collapse.
