Matt Groening : Futurama Adventures before purchasing it in order to gage whether or not it would be worth my time, and all praised Futurama Adventures:

Five StarsBy SarahGreat!4 of 5 people found the following review helpful. Bongo Comics Rule!By William HoffknechtSo here is the thing that so far has held true for every Futurama and Simpsons comic that I have read...It is just like a good episode of the show, just in comic book

form. If you love the show of Futurama and can tolerate reading, buy these comics because they are hilarious. The characters and situations are true to the show and, although I have not found an issue that is as good as a great episode, all that I have read have been as good as good episodes. These are must-haves for fans of the show.

Follow Fry, Leela, Bender, and the crew of Planet Express as they fend off hostile takeovers, risk life and limb on a no-holds-barred game show, protect New New York City from the Santa Robot's annual slay ride, save the world from the fiendish machinations of Robot Devil, confound terminators from an altered future bent on destroying the past, form a superhero team and rid the universe of marauding break dancers, and fight off the effects of aging with a mind bending transformation that could spell the end of all they hold dear. Take flight to the future of Futurama and leave the past behind ... today!
