**Matt Groening : Futurama-O-Rama (Simpsons Futurama)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Futurama-O-Rama (Simpsons Futurama):

A must have for Futurama fans (that haven't already bought the comics) By Richard SIF you're a Futurama fan and don't already have the comics then this is a good book to have. Fox was very short sighted to take it off the air, but then entertainment isn't really their priority (was it ever?). Comedy Central tried but I think the momentum had been lost since it was a second or third death and revival for the

series. Keep in mind this is a published collection of comic books, so the artwork varies and the stories aren't as good as the televised versions, but these are generally new stories and aren't bad. This is a must have for Futurama fans! 1 of 1 people found the following review helpful. Fills the empty void in my heart where the (now-cancelled) show used to be. By journey So FUNNY! I swear I can hear each character's voice as I'm reading, lol. Great quality, great stories, great laughs. 5/5 must have for any Futurama fans out there. It's a shame that these comics aren't more popular and it's a shame that this amazing show was cancelled. AGAIN! 1 of 1 people found the following review helpful. I love it. By William Hoffknecht If you have ever read any of the Bongo Comics series', you are in for a treat. Both "The Simpsons" and "Futurama" give us well drawn and written comics for almost anyone in the family. Reading a Futurama comic is much like watching an episode. The characters act and talk the same as they do in the show. Mind you, most of the issues are not as hilarious as the great episodes, but are about on par with a decent episode. Also, if you are a Futurama fan, there are a lot of times hidden jokes just for the religious fans of the series and you get the chance to learn and see more about their universe. More aliens, more jokes, and more of the characters that you cannot get enough of. I recommend at least giving them a shot and this particular trade is a collection of issues, so you will get a good serving to check out.

Get ready every Futurama and Matt Groening fan, here comes Futuramaorama, the very FIRST comic compilation based on the Emmy-nominated television show Futurama. It's a long way from making a pizza delivery on New Year's Eve to the bustling cityscape of New York in the 31st century, but for Phillip J. Fry it only took one little cryogenically frozen nap. Waking up in a future imagined by The Simpsons creator Matt Groening, Fry finds a job at an interplanetary messenger service and falls in with Leela, a sexy one-eyed space orphan, and Bender, an alcoholic misanthropic robot programmed to bend things. Blast off with this all-new Futurama Comics collection, and leap feet first into a fulfilled future!
