Marvel Comics : Future Imperfect: Warzones! (Secret Wars: Warzones!) before purchasing it in order to gage whether or not it would be worth my time, and all praised Future Imperfect: Warzones! (Secret Wars: Warzones!):

5 of 5 people found the following review helpful. Great return for the Maestro.By Xyon McKellThis trade collects the entire Future Imperfect: Warzones! series (#1-5) and material from Secret Wars: Battleworld #4.On the patchwork Battleworld that is all thats left of the multiverse, Doom has granted the Maestro dominion over the city of Dystopia. But there are those who want him gone, and the Maestro has wants of his ownIncredible Hulk: Future Imperfect is one of my all time favorite comic book stories. It was nice to revisit the characters and setting in the obviously capable

hands of the original writer (Peter David). I enjoyed this quite a bit. Its not on the same level as Hulks confrontation with his villainous future self, but its a strong story that really plays to the Maestros strengths as a character and holds several surprises. Davids tendency to get too cute about working in references crops up here and certain things feel really shoehorned in. They dont detract too much though and everything builds to a surprising yet logical conclusion. Im glad the ten page Surfer vs Maestro excerpt was included for completeness, but I didnt care for it. Awesome revival of a great villain. Now I think I need to go reread Future Imperfect again. 3 of 3 people found the following review helpful. Kneel to the Hulk King By Jacob Alvarado Baron Maestro calls this review to order. As with many of the Secret Wars tie-ins this follows a group of rebels who try to rise up and take down the Baron of the area of Battleworld he rules. But the Maestro has grander goals than being a Baron and doesn't waste time with multiple fights against these rebels, he has use for them. The ending doesn't really make sense with Maestro's inclusion in the final battle in the main Secret Wars title which is important for a tie-in and lost it some points. Also includes a Battleworld story with Silver Surfer, short and doesn't connect with the main events. 0 of 0 people found the following review helpful. Peter David does it again! By Picardfan007 Just when I thought the Future Imperfect saga was over, we get this story for Secret Wars! The complex relationship between Banner and Hulk is expanded. We get to see what happened to Doom and The Destroyer. It's a surprise and twist on every page! If you like David's workthis is one you can't miss.

On Battleworld, the dictator of dystopia is a familiar face. THE MAESTRO rules but there are those who want him dethroned! What role does RUBY SUMMERS have in the plan for this dangerous rebellion? Have the rebels genuinely found ODIN, the father of THOR, as an ally against the Maestro? COLLECTING: Future Imperfect 1-5, Secret Wars: Battleworld 4 (B story)
