Nicole Perlman : Gamora: Memento Mori before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gamora: Memento Mori:

1 of 1 people found the following review helpful. Great Art and an Engaging Backstory for Gamora, Hampered by the Fact that It was Another Title Prematurely Cancelled by Marvel By clairetoldmetochangemyscreenname Nicole Perlman and Marco Checchetto bring us a very strong glimpse into the background of everyone's favorite green-skinned former assassin. Gamora's solo story is a flashback to her time before the Guardians of the Galaxy when she was

Thanos' favored "daughter" and personal assassin. Still mourning the loss of all of her people to the Badoon (one of Marvel's numerous races of evil aliens), Gamora embarks on a personal quest to wipe out the royal bloodline of the Badoon leaders. Afterwards, a still mourning Gamora takes up a suicide mission to track down and eliminate the sole survivor: the Badoon king's exiled daughter who was sent to a prison world on the edge of a black hole. The action and excitement of the story comes from the race against the clock narrative since the prison world is mere days away from being engulfed by the black hole's event horizon, at which point the planet will be consumed. The characters she comes across are also a fun group and the story does dig in to her backstory with Nebula and Thanos as well. The artwork is consistently gorgeous as well. The issue with the book is first that Gamora's backstory has clearly been tweaked to fit more in line with the Marvel Cinematic Universe. Unlike past stories from the comics, this book plays fully into the idea that Thanos forced Gamora and Nebula to compete for their place at his side. You'll also notice that Nebula has been redesigned to match her cinematic counterpart (Marvel has an annoying trend to change comic book canon to mesh with the movies). Second, the ending is a tad rushed, especially Gamora's heel turn decision to help the lost princess instead of killing her. This may be in part due to the fact that the series was quickly cancelled like so many other Marvel solo titles. Essentially, the book works like a limited series instead of an ongoing title. Too bad as Perlman and Checchetto make such a great creative team. 1 of 1 people found the following review helpful. Highly Recommend. Not Getting Enough Credit. By Customer This story was the definite surprise of the year for me across all publishers. There are so many layers to this story and it really digs deep emotionally. I would recommend this TPB to not just comic fans, but anyone looking for a great story. It connects on every level, with there being some funny, sad, and happy moments throughout the book. The art is absolutely gorgeous. Checchetto is at his best when creating the crazy world of Ubiex. His art gives this book a great atmosphere and is incredibly pleasing to look at. This is my number one choice for surprise book of the year, and is easily one of my favorite stories of the past few years (which I was really not expecting). With so many books and so many choices out there, I guarantee that this one will not disappoint! Give it a try! 1 of 1 people found the following review helpful. Gamora is a great graphic novel with a solid story and luscious art. By Paulina Przystupa Gamora is a great graphic novel with a solid story and luscious art. The story helps to lay the foundation for Gamora's rebellion against Thanos and eventual joining of the Guardians of the Galaxy. The only downside is that the series didn't continue.

From screenwriter Nicole Perlman - co-writer of the Guardians of the Galaxy screenplay - and Marvel superstar artist Marco Checchetto, comes a killer new ongoing series! Once upon a time, Gamora was Thanos' heartless pet assassin and favorite adopted daughter. Today, she is the backbone of the Guardians of the Galaxy, putting her life on the line to defend the innocent throughout the universe. What was it that transformed her from being used as a tool of her oppressor, to a champion of the powerless? Embark on a journey of revenge and redemption, and witness how Gamora earned her reputation as the Deadliest Woman in the Galaxy. COLLECTING: GAMORA 1-5
