**Hiroya Oku : Gantz Volume 27** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gantz Volume 27:

1 of 1 people found the following review helpful. Another great volume of GantzBy Kindle CustomerI love the Gantz series because of the way the author reveals the mystery of Gantz slowly. The art,quirky elements, action, and characters are also top notch. You are always wanting to know more after a volume. I have never experienced reading a manga that made me want to know what happened next more than Gantz. There is some funny moments, shocking and scary moments, and even some tender moments between characters in this volume. A volume of Gantz is a full experience. If you have not read Gantz before please start from volume 1 as you will be at a total loss about what is happening. If you have read up to this point you know what to expect and will not be let down what so ever. Enjoy :)0

Earth's skies turn crimson. A massive, unknown flying craft lays waste to the planet's leading military superpower. Chaos reigns! Gantz teams from all over the world gather in Italy only to be instantly overwhelmed and ripped to pieces by an endless stream of foes. And just as their destruction seems assured, the Gantz warriors are transferred home and released without explanation from their duty by the Gantz orb. Is this a reward for courageous service or simply an admission that Armageddon is now inevitable?
