Karen Traviss : Gears of War Book Three before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gears of War Book Three:

3 of 3 people found the following review helpful. "It was the end of the COG - not the end of humanity." By BlueStarThe third book in the Gears comic series, this one covers issues #14-24 of the series. It starts with the six-part story arc Dirty Little Secrets that bridges the gap between Gears of War 2 and Gears of War 3! Adam Fenix is racing for a way to stop the lambent polyps from taking over all life on the planet and the Gears are constantly being pushed back further and further to the point where the COG no longer exists! Myrrah's final attack on the stragglers brings the

last hope for humanity in the hands of Adam Fenix! The next issue showcases a flashback for Jace's chipped ear and one sortie that he'll never forget! Hoffman's early years, as well as Adam Fenix's early COG career are in the next two issues and Marcus and Dom star in the next two issues along with the end of the Pendulum Wars and Adam's newest invention; the Hammer of Dawn! Finishing off the series at the 24th issue, this book really has some highlights. Although the art by Pop Mhan in the first arc isn't my favorite, the story is really well done for filling in the holes between the games. Jace's 'Midnight' arc was nice with much better art by Leonardo Manco, and the only story in the book written by Joshua Ortega instead of Karen Traviss and works well but, like many of the others (and even within the games), if the characters have a helmet on, chances are that they'll be dead by the end of the story. If they don't have a helmet (nor a caution for safety, apparently) they live. At this point, it's just getting really predictable. 'They Also Serve' is the next arc drawn by Colin Wilson and it looks just like Manco's work; very detailed and gritty. 'Unseen' has art by Julius Gopez and follows a sketchier, yet just as detailed, workmanship. Finally, 'Unsaid' 'Promise Me' has Pop Mhan back at the helm and a very odd-looking young Marcus in the starring role. The grittiness is dispatched for clean, colorful art that really isn't fitting for the Gears franchise. The textless covers are all there as well as some bonus art at the back as well. All placed in a nice hardcover with a dustjacket and the inside cover just being a blood-splattered Gears symbol. Overall, a nice representation to a pretty darn good story that really gives you a feel similar to the games. 1 of 1 people found the following review helpful. just amazing! By Corry Richardson Great book so far. just about 15 pages left to read. I have played the game, read the book series, so this is feeling great and filling some gaps left out by the other 2.3 of 3 people found the following review helpful. Book meet my very expectation? By Ronni3 Will This book really filled in those grey areas that raised question as to what was really going on with the locust on gears of war 3 and the storyline from there. I highly recommend getting this one if you're a true fan to finish you collection

Following the sinking of the Jacinto at the conclusion of Volume 2, the Gears have fled to the island of Vectes where they struggle to defend the last remnants of humankind from The Stranded and a new menace, The Lambenta deadly, mutating lifeform. Collects issues #14-24 of Gears of War.

About the Author #1 New York Times best-selling novelist, scriptwriter and comics author Karen Traviss has received critical acclaim for her award-nominated Wess'har series, as well as regularly hitting the bestseller lists with her Gears of War, Halo, and Star Wars work. She was also lead writer on the 2011 blockbuster game Gears of War 3. A former defence correspondent and TV and newspaper journalist, she lives in Wiltshire, and is currently writing Batman: Arkham Unhinged for DC Comics.
