**Joshua Ortega : Gears of War, Vol. 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gears of War, Vol. 1:

0 of 0 people found the following review helpful. A must have!By Jesse G.Amazing hardcover comic for gears of war fans/collectors. Comes with a removable sleeve to unveil an awesome matte black finish with a detailed embossed red marcus fenix comic artwork on the cover. Looks great on display with my other gears comics. I recommend buying if

you can find it for a reasonable price since they are becoming rare. 1 of 1 people found the following review helpful. Good ol' gory Gears! By lisaokapi Gears of War, the hit Xbox video game, got into the comic book medium and the first iteration of it is in Book One of the series highlighting the Hollow story arc along with the One Day single-issue event. The Hollow story arc involves Dom, Marcus, and two new guys, Jace and Barrick in their quest to get from Jacinto to Montevado to look for fellow Gears and try to find the parents of a poor Stranded girl. The story is typical Gears of War with more blood and gore than dialogue and narration. The two new characters are well done in terms of development and it's really neat to see Marcus leading his new squad around and the cameo made by Cole and Baird was a nice touch as well. The One Day one-shot is about Dom's quest to find Maria and how he'll continue fighting for as long as it takes to get her. It was a short comic but one that added some backstory to Dom (plus, you get to see Dom and Marcus as their younger selves. The artwork in the book is fantastic with lots of red ever-present. It was dark and dreary but at the same time, splashed with red on almost every page as chainsaws ripped through flesh and sniper bullets spilled brains on walls. The characters are drawn just like their video game counterparts and the locust look just as scary on comic paper as they do on your LCD TV. The hardcover edition of the book has a nice slip-cover and the cover of the actual book looks really neat (I must brag that I picked it up off .com for a mere \$0.12. I think they listed it at the wrong price but hey, I'll take it!) Conclusively, I think this is a neat book, especially for Gears fans, and a nice read for those that want nothing but action in their comics! Overall Rating: 8 out of 10 stars 0 of 0 people found the following review helpful. Great condition and a good read By JudenBear Follows the events of the first game. Great condition and a good read.

The best-selling video game franchise arrives in comic books stores with a blast - one month before the debut of the new Xbox 360 game! This story bridges the end of the first Gears of War game and the start of the second one, following the brutal adventures of Marcus Fenix and Delta Squad in the battle against the Locust! What happened after the Lightmass Bombing and how did the Locust react to this devastating weapon? Find out in this new series by Gears of War 2 game-writer Joshua Ortega (Death Dealer) and artist Liam Sharp (LORD HAVOK AND THE EXTREMISTS).
