A must-have for all Ghostbusters fans By Corey Stevenson The follow-up to the Total Containment hardcover, Mass Hysteria finishes the regular IDW Ghostbusters series. The Ghostbusters TMNT crossover and Real Ghostbusters crossover aren't included though. If you own the first Omnibus then this is a no-brainer. If not, well, stop what you are doing and go buy it. The comic is a great sequel to the movies (and video game) and is perfect for Ghostbusters of any age 6 of 6 people found the following review helpful. Five

Burnham is an excellent comic artist and writerBy Andrew S.Burnham is an excellent comic artist and writer. The references to other 80's movies (especially Back to the Future, one of this other projects) and tons of other easter eggs inside the brilliant artwork.

The Ghostbusters have been spirited away by some dastardly demons from another dimension, leaving their rescue, and the day-to-day busting of ghosts, to the New Ghostbusters! All the while, a new god has taken notice of Earth and her chaotic presence promises unheard of catastrophe for New York City. Featuring a new introduction by Dan Aykroyd, Mass Hysteria collects the last 20 issues of the ongoing Ghostbusters series written by Erik Burnham with art by Dan Schoening, plus an art gallery and backup stories.
