Erik Burnham : Ghostbusters Volume 5: The New Ghostbusters before purchasing it in order to gage whether or not it would be worth my time, and all praised Ghostbusters Volume 5: The New Ghostbusters:

0 of 0 people found the following review helpful. Who ya gonna call?By Suzanne R. CostnerI must admit, when I saw the title, I thought it would be some sort of reboot of the Ghostbusters. Upon closer inspection (reading the blurb), I found out that the guys have disappeared and Janine has rounded up some help to keep the business going and figure out what happened to the real Ghostbusters. Those of you who have only seen the movies will recognize Janine, their

receptionist who answered the phone with "Ghostbusters. Waddaya want?" The other members of the new crew come from the comic book adventures in volumes 1-4 of this series. There is Agent Ortiz of the F.B.I.; Kylie Griffith, who runs Ray's occult bookstore; and Ron Alexander, who stole schematics of the proton packs and tried to run his own ghost busting service. The original team's arch nemesis, Mr. Peck, is back and eager to exploit the new team with the help of the deputy mayor's office. Between press appearances, photo shoots, and dealing with the liaison assigned to them, the team tries to find out where the guys have been abducted to and by whom. It was fun and entertaining, but I would have enjoyed it more if the original guys had been present on more of the pages. 0 of 0 people found the following review helpful. Very interesting. By X MI was a great read. They bring in Jack from the movie Ghostbusters 2 in the story, he's still a jerk lol. 0 of 0 people found the following review helpful. It's About Time. By Bassfingerz I was waiting for this to come out already, so I could finally buy it and read on my Kindle. I must say the story was very entertaining. Felt like I was watching a short film. Had me cracking up. But most importantly it left me wanting more. So I def can't wait for the next volume :D

The Ghostbusters are gone, spirited away by some dastardly demons from another dimension! But spectral shenanigans haven't ceased in the city that never sleeps, meaning a new group will need to step up and don the proton packs. Will the New Ghostbusters be able to rescue their predecessors, or will they share the same fate? Also features all-new Real Ghostbusters back-up stories.

About the Author Erik Burnham is a Minnesotan writer and artist that first broke into comics with a series of humorous short stories in the Shooting Star Comics Anthology. After working on a horror story for Gene Simmons' House of Horror #3 at IDW Publishing, Erik worked on several other projects for IDW, including his current critically acclaimed run on the ongoing GHOSTBUSTERS comic book. He's also been fortunate to work on many other projects, including varied work for Cryptozoic, Insight Editions, Marvel, and Panini.
