After incursion, the Marvel Universes were destroyed and Dr. Doom cobbled together a new reality called Battleworld, with many paperback titles released under this banner. Except this one; technically, its a Battleworld book, but you wouldnt know from the title its in hardcover. Smart. I didnt care about Battleworld, but I

love Skottie Young's Little Marvels! Young's baby character covers are so popular, that Marvel had him do a one shot called A-Babies v X-Babies, wherein the two teams battle over Caps stolen Bucky Bear. It was adorable and hilarious and I always hoped he'd get another shot at it. Unfortunately, the Young Marvel: Little X-Men, Little Avengers, Big Trouble was poorly executed and ruined by having other writers than Young involved. Thankfully, this book brings back the magic with more adorable hijinks and an actual story that suits these baby characters. A set of twins moves to Marville, and because twins are cool, the X-Men and the Avengers want them on their team. And then the Inhumans show up to lure them onto their team. There are several battles and lots of inside jokes for long-time comic fans. It's fun and irreverent and which team actually gets the twins was a nice twist. Overall, this is a fantastic book. It's a bit pricey for the amount of material included, but the art is incredible and the story is pretty engaging. As a bonus, the original one shot is also included at the end. Highly recommended.

Funny, Enjoyable and light hearted look at superheroes
By bpgilCute, Funny, Enjoyable and light hearted look at superheroes. Read it repeatedly with the kids and we laughed together every time.

By LabrynthI was prepared to not like this. Seriously. But a few shots of some of the Widow stuff (Avengers... Assemble all over their butts!) had me caving. This is adorable. Seriously, no joke, adorable. While still keeping their personalities.

Skottie Young brings out the big guns...and the little Marvels...in the series fans have been waiting for! In the Battleworld zone known as Marville, playtime is serious business - and Marville's pint-sized heroes are working overtime to prove to their new neighbors which crew is toughest! With super-powered dodgeball, high-tech hideouts and eye-puns aplenty, Marvel's most adorable heroes aren't pulling any punches in this larger-than-life, fun-sized adventure. Featuring all your favorites (just, you know, shorter) including Cyclops, Hawkeye, Black Widow, Wolverine and more as the toughest, funniest, craziest and most adorable Marvel heroes throw down in a battle of the fittest! The smaller they are, the harder they brawl - this is Battleworld, after all!
