Joshua Luna : Girls Volume 1: Conception (v. 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Girls Volume 1: Conception (v. 1):

9 of 9 people found the following review helpful. Burgeoning category, worth the money (re-read 7/10)By TheReviewerIf you like the series The Walking Dead or Y: The Last Man, you will probably enjoy this too. These three series all follow the same parameter- people who need to survive in a post-apocalyptic environment. For all you fan boys, there is not full nudity (at least not anything you would expect), but the language and themes are adult

enough to entertain. This book is nothin spectacular, but it is well priced, fast paced, and one of those series that just keeps on putting out issues, because it can dangle you forever, long after the theme gets stale (like Preacher). Like I said, if you like Walking Dead or Y, you should probably get this too. Very clean artwork that looks digital.re-read 7/10** I always include re-read ratings, which means "what is the likelihood I would re-read re-read this graphic novel. Maus is great, but I won't re-read it. Global Frequency is trash, but you can re-read it often. **0 of 0 people found the following review helpful. Great story, but a few issues with the book itself...By Chase S.The story and everything about the comic was great in itself. However; when I got the books, books 2 and 3's spine glue was weak or nonexistent. So halfway through reading the book, the spine fell off, leaving me with just the pages all glued together, barely, and slowly separating as well. The 4th book I got was as good as the 1st book at face value. The spine glue was thick and visible, the book didn't seem to present any problems till about half way through. I found a huge rip in the pages, only one page, but it cut through almost all the dialog on both paths, distorted the images of the characters and just felt like a bit of a downer to lose so much build in the story over this issue with how the book was probably handled.I would recommend this story to anyone that likes the Walking Dead for the art style and writing felt very similar and the pacing felt on track with great rewards.0 of 0 people found the following review helpful. Best of the seriesBy T. Cue.This was the best one of the series, laying the mood and showing the scenery. The Lunas had a lot to promise in these first few issues, and they didn't resolve it very well by the end, but all the fun of the first one or two is still worth going through.

Ethan Daniels is a typical bachelor who suffers from one, infallible truth: dealing with the opposite sex can be complicated. One night, he bumps into a mysterious woman who will change his life... and maybe even the world.
