Joe Casey, Tom Scioli : Godland Celestial Edition Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Godland Celestial Edition Book 2:

2 of 3 people found the following review helpful. Bigger Than Jesus!!By Dusty Bottoms is Dead GoneThe series is conceived and executed in likeness to the Kirby, Starlin, Engelhart-era Cosmic Superhero Epics. It's comical and subtly sarcastic. The art is absolutely wonderful, but the style may not be for everyone, especially those who sadly don't read enough independent or old school comics. You never know what to expect from this wild ride, but have no doubt, the story is well written and has all the mechanics of a rewarding read. But the real enjoyment comes from the

fact that it's a throwback to a more light-hearted time in comic book history. Adam Archer, once Mars-explorer.. now Earth's protector, has a difficult job to say the least. Aside from saving the planet from the dangers of the cosmos, he has to deal with humanity's mistrust, deceit and well.. uncoolness. Also, his sisters and an alien space-dog join in the fun. The villains are ridiculously awesome. This volume elaborates on many over-arching concerns, and is chock-full of hilarious space-opera antics. Archer grows dangerously closer to learning his destiny, the cosmos conspire to invade Earth, and Basil is still trapped inside the body of a woman. In Godland, everything is BIG!! Big heroes. Big villains. Big universe. BIG, BIG. BIG. The Celestial Editions seem as if that very concept is what brought them into existence. As a total comic-hoarder, I can't help but drool every time I pick this book up. There's no dust-jacket, the art is printed right on the very sturdy cover. It looks fantastic, and pretty artsy. The pages are thick glossy, and of course the whole thing is over-sized. Collecting issues 13-24, this thing is a total steal for the cover price. This is such a great series. It's a balls to the wall cosmic blast. The first Celestial Edition is out of print, and worth a pretty penny if you can find it. I suggest investing in this thing, before you can't afford it. 0 of 0 people found the following review helpful. Fun read By Anthony Kujawa But not as good as vol. 1 in my opinion. At times it felt forced or "been there done that." still a fun read but I was hoping for a little more. still worth picking up though if you have vol. 10 of 1 people found the following review helpful. Beautiful Book By Timothy MI am giving this book 5 stars simply for the cover and quality of the binding itself. I still haven't really read it - I haven't been able to find the first Book yet, so I don't want to ruin the story for myself. But looking through the sweet illustrations is a lot of fun. I mainly use this as a coffee table or prop it up on top of a shelf as a decoration because the cover looks so cool. The ink is vibrant, with a slightly gleaming finish. It feels good in your hands. If you love this style of illustration it's a good reference, so check it out.

Book Two in the Eisner Award-nominated Celestial Editions is here! See how the greatest cosmic superhero epic of our time was taken to even higher levels of surreal splendor! See Commander Adam Archer, Maxim, Basil Cronus, Nickelhead, and more in all their oversized glory! Is there any other book that delivers the Savage Sting and the secret of the Infinity Tower? Not in this universe! Where else are you going to see Lucky in all of his glory? Only GDLAND has the pure, storytelling power to scratch the greatest itch you ever had! Collects GDLAND #13-24, plus tons of cosmic-powered extras!
