Godzilla returns after an in-universe four-year hiatus to face old foes new monsters! An almost faithful collection of issues 13-16 with one glaring change to one line of dialogue that was unnecessary. A fine read nonetheless.

Well we are down to

one alien race, Godzilla returns to fight a small army of mech monsters Kiryu, the original Mecha Godzilla (err make that Mecha Godzillas) and Mecha King Ghidora. The evil twins from the first Godzilla series are back again in force. As usual things are setup against Godzilla again, too bad to the opposition. 0 of 0 people found the following review helpful. Godzilla vs. Mecha Monsters By EdM. Fair story that collects issues 13-16. Four years have passed since last volume. Godzilla awakens and is attacked by squad of four Mecha-Godzillas under control of evil aliens. They also throw in a Mecha King Ghidorah but at least Angirus shows up on G's side to even things out. Not really a good story but not bad either. Art could have been better. Cataclysm and Half Century War are better books. Rulers of Earth series concludes with vol. 6.

While Godzilla's disappearance has brought calm to the planet, a threat from the past is set to resurface and take back the world they once had control over. No monster is safe and no future is certain as one of Godzilla's greatest enemies prepares to return!
