Greg Rucka, Ed Brubaker : Gotham Central, Book 4: Corrigan before purchasing it in order to gage whether or not it would be worth my time, and all praised Gotham Central, Book 4: Corrigan:

0 of 0 people found the following review helpful. End of a great seriesBy James B.If there is one problem with Gotham Central, it's that it had to end here. While the story arcs in this final volume are good, they just don't feel like a satisfying finale. But let's talk about the good things.The fourth volume delivers in pretty much every genre. The first one-shot issue featuring a few beat cops for horror, the Dead Robin investigation for mystery and humor, and Corrigan itself for tragedy. Really, there is something here for everyone.If you haven't already, go pick up volume 1, and I'll be

here when you get back.0 of 0 people found the following review helpful. A fantastic end to a fantastic series.By Dave Bell Jr.I'm honestly livid with myself for not picking this series up sooner. The art style perfectly compliments the grim and gritty reality of Gotham, yet still manages to capture the high-flying spectacle of the super-heroics that make the DC universe great.The pacing of each story is never too slow or too fast, the characters are relate able and engaging, and the stories told within this volume are truly astonishing. The ending, in particular, was truly bittersweet, and not just because of the somber final chapter, bu because it was just that: the final chapter.All in all, I would highly recommend this book for any fan of comics or crime-dramas. Aces all the way!1 of 1 people found the following review helpful. A step back from the highs of Volume 2, but still greatBy Brian BAs I've mentioned in other reviews of Gotham Central, the book has received near-universal praise and, frankly, I think it deserves all of it. However, this book volume is typically treated as being a step back from the best stories in the series, but even if it is, that would still make it better than 90% of comics out there. So, short review: Must Buy. Longer discussion below.The stand alone story at the beginning takes a different approach than the rest of the books, telling the story of two corrupt cops who aren't actually involved with MCU. Some of the regular Gotham Central characters make appearances (particularly Corrigan) but it's focused on these new characters. Essentially, where Gotham Central is about the cops one step removed from Batman, this story is about the cops one step removed from them. It's an interesting story and has a pretty great pay-off.Then there's the dead Robin story, which I particularly enjoyed. It captures a lot of what makes this series special. In fact, the story I could have really skipped was the issue that takes place during Infinite Crisis. Now, depending on how you feel about Infinite Crisis, you may enjoy the issue more than I did (aside: I thought Infinite Crisis was pretty much a mess), but it really jumps away from the tone that I enjoyed in the series.Finally, there's the volume's namesake arc: Corrigan. This is where the book tails off in my opinion but, again, still better than almost 90% of the books out there. I can't recommend this series highly enough.

Witness the gritty side of the Gotham City Police Department from their perspective, as teens dressed as Robin the Boy Wonder start turning up dead.In this final hardcover collection of GOTHAM CENTRAL, the dead body of Robin the Boy Wonder is found on the streets. Now the detectives of Gotham Central must try to solve the mystery of his death while dealing with his associates, Batman and the Teen Titans.From the Hardcover edition.
