Mike Grell : Green Arrow Vol. 6: Last Action Hero before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Arrow Vol. 6: Last Action Hero:

0 of 0 people found the following review helpful. Ollie's Quest for Inner Peace By Gregory Cox I say this as someone who has enjoyed every single volume of Mike Grell's run on Green Arrow up until now, including the Longbow Hunters Mini-series that preceded it: this might very well be my favorite volume yet. The back of the book, as seen in my pictures, has the word "Wanderlust" on it in big white letters. That's probably the perfect word to describe the

stories collected in here. At the end of the previous volume, *Black Arrow*, Oliver Queen was a man who had been betrayed by his government, which caused him to lose credibility in the eyes of the public and the hold that he'd had on his life in Seattle. He was, to be blunt, no longer happy just sitting in place. The stories in this volume continue from that ending, sending our hero on a journey across the world and driving him into some of the most politically charged stories yet. Since he is now outside of America for an extended period of time, Grell takes this chance to have Ollie get involved in a number of different international issues. Africa, London, Canada, Ollie visits them all, getting involved in issues such as poaching, racial tensions, land ownership, and more. Naturally, since the world and its issues moves on, some of the conflicts might seem a little dated, as the political landscape is no longer what it once was. However, I think they still hold up just fine and naturally allow us to see even more about our hero's personal views and how he has either changed or stayed the same over time. As always, I suggest this to anyone who is a fan of either Mike Grell or Green Arrow, especially since the stories within are accompanied by some truly stellar artwork. 1 of 1 people found the following review helpful. Green Arrow's Global Heroism By Matthew D'Souza Mike Grell's incredible 80's-90's run of Green Arrow continues as Oliver Queen takes on the IRA, land thieves, poachers, and terrorists the world over trying to make a difference. This volume wraps up Green Arrow's quest for inner peace as he travels the world from Canada, London, Africa, and the U.S.A. Incredible unique art that stands out from the other volumes along with Grell's detailed and intelligent take on world issues marks Green Arrow, Vol. 6: Last Action Hero as a remarkable comic worth reading. 1 of 1 people found the following review helpful. Vivid, Compelling, and Gritty By Jan Mike Grell's gritty Green Arrow was in my view the most compelling read in the DC Universe outside of the short-lived Dark Knight Returns. Nothing before or since has captured the nuances of this middle-aged vigilante who combed the streets of Seattle. I highly recommend the entire run of Grell's Green Arrow, of which this is but the sixth volume.

Oliver Queen, Seattle's own superhero, has only recently cleared his name of accusations of treason against his country. Despite his innocence, the Green Arrow is plagued by the animosity created by false publicity. Despondent and discouraged, he finds himself consumed with wanderlust. He sets off to explore the world, and to once again find the worth in himself. It isn't long before Oliver finds action on the rural set of an action movie, in a field of stone obelisks and in the lands of the Maasai. Will Oliver survive and wear the mantle of the Green Arrow once more? How long will Dinah, alone in Seattle, hold on to hope that he will return? The Green Arrow becomes wanderer and dreamer in *GREEN ARROW: LAST ACTION HERO*, as comic book legends Mike Grell, Denys B. Cowan and Rick Hoberg continue Oliver Queen's story in this collection of *GREEN ARROW* #39-50 of the classic series.

About the Author/Artist Michael Jon Grell quickly made a name for himself in comics by tackling one of its most difficult assignments -- the seemingly infinite universe of the Legion of Super-Heroes. From there, Grell joined Dennis O'Neil for a well-received Green Lantern and Green Arrow revival and might have become a regular contributor to the Batman office if his creation *WARLORD* had not taken off to become DC's most successful fantasy title ever. Grell (whose other works of note include *Jon Sable*, *Freelance*, *Starslayer* and *GREEN ARROW*) still writes the occasional *BATMAN* tale.
