Benjamin Percy : Green Arrow Vol. 9: Outbreak before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Arrow Vol. 9: Outbreak:

Much better than the last two By morgant While this isn't quite as good as the Jeff Lemire run (which wasn't riddled with abnoxious white guilt from the author), this is a much better volume than the awful last two volumes of the run. I was half expecting Deathstroke to just be chucked into the book

similar to how volume 7 was handled, but it was actually handled very well and he felt like he was necessary to move the plot. Overall the plot was interesting and every character had a role to play. It was also neat that they put issue one of Rebirth in there as sort of an added bonus, even if the art of awful and the story seems rushed, it's a welcome addition. 0 of 0 people found the following review helpful. Island of Scars part 2 By E. Chism Green Arrow and Black Canary are searching for Diggle. They uncover another connection to the Ninth Circle and even spoiler! I like the art, there are some great action panels, and I really love seeing Ollie and Canary kicking ass together. 1 of 1 people found the following review helpful. .By Cynthia I really still can't get over how quickly Benjamin Percy put Dinah and Ollie back together with really no build up and it's bugging me, they just met...and already they are joking around about how they're like a married couple and how Dinah would try to kill him..and also really don't like the fact that Percy added a character from that awful show that I'm trying to forget exists. This series has been a hit or miss with me and this issue was a miss, so much you could have done with Dinah and Ollie being on the island and instead went in a very random story about a wife and a husband who live on the island, the wife controls the island, she's evil, not very evil though, drug trade, husband wants control of the island and Dinah and Ollie help him, husband and wife battle, then the husband and wife are fine with each other again and tell Dinah and Ollie to leave, Dinah and Ollie go back home, that's it. This island thing only lasted 2 issues and Dinah just happens to be on it as well, honestly this series is starting to lose my interest.

OF WOLF AND MAN...AND DEATHSTROKE! The Lukos virus transforms its victims into an unholy mixture of man and beast. Scores of the infected, known as wargs, plague the streets of Seattle, where the battle for territory between deadly militant factions will only get bigger and bloodier. And the contagion is in Green Arrow's blood. Fighting to remain himself as the virus transforms him into something inhuman, Oliver Queen must push away everyone close to him, even at the moment he needs them most, and race to find the one man whose miraculous healing powers can save him. But Green Arrow is not the only hunter on the trail. To save his life, his city and maybe even his soul, Oliver must fight the world's deadliest assassin: Deathstroke! In **GREEN ARROW VOLUME 9: OUTBREAK**, from writer Benjamin Percy and artist Szymon Kudranski, one of the greatest villains in comics collides with Oliver Queen! Collects **GREEN ARROW #48-52**, **GREEN ARROW ANNUAL #1** and a special preview of **GREEN ARROW: REBIRTH #1**.
