I like the idea of a finite amount of emotional energy in the spectrum. Changed GL forever. 1 of 1 people found the following review helpful. Introducing the Relic! By zombie phreak In many ways this graphic novel reminded me of Blackest Night, it had the 7 entities coming together and the corps all had to unite to help stop a mutual enemy, "The Relic." It had a TON of great battles in it and the artwork was truly top notch! Where I

felt that the comic fell short was that it had the concept that only so much emotional light was available in the universe and when the lanterns used their rings it began depleting that resource. That I thought was kind of weird. I mean there's only so much rage, willpower, love, greed, hope, etc., in the universe? Those are emotions, how can we run out of them? Then again it does have the underlying message that everyone has their breaking point and sometimes we have to have our dedication to something we are passionate about, renewed. It has minor things that I didn't like, but all in all it's a great Green Lantern story and I enjoyed it. Check it out! 0 of 0 people found the following review helpful.

Green Lantern: Lights Out (The New 52) By Jarred Blackburn a truly shocking turn of events when it turns out the emotional spectrum of energy that they use is a limited resource when it's revealed by Relic that when the reservoir of emotional energy runs out the universe will end and a new universe will begin. The epic event that will forever change the universe and the different color Lantern Corps forever! Relic has arrived and the universe shivers in his wake. The lights of the Lanterns are fading as the emotional spectrum is being drained. It is up to Hal and the Green Lanterns to rally the other Corps together if they are going to survive. Many won't and others will change allegiances, but one thing is certain--nothing will ever be the same. This volume collects Green Lantern New Guardians #23-24, Green Lantern #23.1: Relic #24, Red Lanterns #24, Green Lantern Corps #24, Green Lantern Annual #2. and as revealed the reservoir is almost completely tapped
