Tony Bedard : Green Lantern: New Guardians Vol. 1: The Ring Bearer (The New 52) before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Lantern: New Guardians Vol. 1: The Ring Bearer (The New 52):

later Kyle finds himself at that wrong place at the wrong time as power rings from the various lantern corps of the emotional spectrum choose him to be their lantern. When the guardians try and get to the bottom of this Kyle gets a glimpse at what they are up to when his mentor and father figure turns on him. Kyle and the various members of the other corp begin a quest to get to the bottom of things while dealing with a new evil that has made its presence known to the galaxy. This is currently my favorite of the New 52 GL books and I always look forward to Bedard's writing and Kirkham's illustrations. 2 of 2 people found the following review helpful. Love it! By Customer I am a huge fan of the Green Lantern series are truly love when all the Corps come together for a greater cause, however ambiguous that cause may seem at the particular time. Seeing a mature and more seasoned Kyle is something great. We get more and more insight into the life and times of Larfleeze as we progress through the various Green Lantern storylines and even get to know more of the individual personalities of Agent Orange's "constructs". A very interesting selection of characters representing their respective Corps in this story. Fantastic writing, great plot, amazing artwork. Sometimes there is a thin line between good and evil; nothing in life is truly that simple. This collection speaks about that complexity which is very organic and real. Highly recommend it! 1 of 1 people found the following review helpful. Great read for a green lantern fan By seanlikespie Obviously as a first volume it needed to build the story. It's very well drawn and gives a fun re-glance at how Kyle became a green lantern. I love Saint Walker so having him in this new series should be awesome

A New York Times Best Seller! Green Lantern Kyle Rayner finds himself at odds with the Guardians of the Universe when rings from all the separate Lantern Corps come to claim him. But the other Corps aren't too keen on the Green Lanterns "stealing" their rings! Writer Tony Bedard (GREEN LANTERN CORPS) pens a new chapter in the Green Lantern mythos with a team of renegade Lanterns consisting of members from each Corps! From the Hardcover edition.
