**Geoff Johns : Green Lantern: Tales of the Sinestro Corps** before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Lantern: Tales of the Sinestro Corps:

1 of 1 people found the following review helpful. A Great Addition to the Main StorylineBy  
clairtoldmetochangemyscreennameAn additional collection of one shots and addendum stories to the main Sinestro  
Corps War series. While not a necessary read to understand the main plot of Johns' story, this collection is worth  
picking up if you are a fan of either the main story arc or the Sinestro Corps characters in general. It provides great

insight to supporting characters like Parallax, Kyle Rayner, Cyborg-Superman, and Superman Prime; while giving great personalities to some of the background Corps members who would go on to have larger presences in other stories like Kryb and Despotellis. Definitely worthwhile reading.

Short helpful review  
By Xavier Zavala Heras  
This book must have at one side "Sinestro Corps War COMPANION". It tells a few stories of some Sinestro Corps members and how they got their fame and ergo the sinestro yellow ring. Besides it gives some (little) background to a few GL Corps members, fallen Lanterns and places in OA. This book is not absolutely necessary to get the Sinestro Corps War saga, but it answers a few couple of minor questions. Get it only if you MUST know everything about GL (even if is not relevant). Be warned.  
UPDATE 11/08/2010-----I'm on my way to the Blackest Night now, so I gave all my GL books a re-read. I just add one star to my original review because this book is good... very good. Is going to have a different effect according how you read it though. First time around I read SCW 1 and 2, and I was full of adrenaline!! That was hard action and story developing like only Geoff Johns can. The problem was that I began this book RIGHT after I finished volume two, so it was a little anti-climactic for me. Now that I gave another read, I wait for a day or two after Sinestro Corps War and began reading Tales of the Sinestro Corps. This book is good!! It has very good stories about some important Sinestro Corps members, description of places and sectors on the GL mythos, brief description of (virtually) ALL the GL Corps members and other VERY important stories involving Superboy Prime and Cyborg Superman. There's also a story involving Kyle Rayner. Is good but not hugely relevant. If you read this book at the right moment (that is definably after SCW) then you'll enjoy it, but if you're in a hype, maybe you should take a day or two off and then read this. The book is not action pack but is good information for the future.

By 1Guy  
Good collection of stories. These guys were real dicks!!

Parallax! Anti-Monitor! Cyborg Superman! These are some of the most feared members of the brutal Sinestro Corps, an army assembled with one goal: to spread fear across the galaxy! In this hardcover volume, the layers of these complex villains are stripped away as readers learn why they joined the Sinestro Corps and what drives them to eradicate the Green Lantern Corps. These stories are integral to the best-selling "Sinestro Corps War" storyline that tore up sales charts in summer 2007!

About the Author  
Geoff Johns has written scores of comics including Infinite Crisis, 52, Green Lantern, All Star Batgirl, Teen Titans, X-Men, The Avengers, The Flash, JSA and Superman. Dave Gibbons is one of Britain's finest comic artists, whose most famous work is the multi-award-winning Watchmen. Since then he has drawn series including Batman, Doctor Who and Give Me Liberty, and has written Batman vs. Predator, Green Lantern and World's Finest, as well as his own graphic novel, The Originals.
