Geoff Johns, Dave Gibbons, Peter Tomasi : Green Lantern: The Sinestro Corps War before purchasing it in order to gauge whether or not it would be worth my time, and all praised Green Lantern: The Sinestro Corps War:

3 of 3 people found the following review helpful. A great follow up to Green Lantern: Rebirth, and good set up for Blackest Night; not for newbies though...By Hrishikesh Diwan This has to be one of the densest stories published in

the DC line. So much happens on every page! I was a bit overwhelmed and had to rely on a Wiki to make sure I hadn't missed anything important. And yet, very clearly, this was just a stage setter... the book is littered with references to the Blackest Night event that is gathering on the horizon, past "Final Crisis". I think Final Crisis itself was seeded in this story as well, if the return of some infamous baddies from prior crises is any indication. :) I dare say no more for fear of spoilers...The fact that so much plot is squeezed into so few pages does have some bad effects however. The art felt frantic to me at times, and some panels, while gorgeous, need several minutes of consideration before you get everything that's going on. Some major events in the plot could well have been several TPBs on their own, but are dealt with quickly (Parallax taking over and leaving another Green Lantern for example). I for one thought this story would've been better told over maybe 1.5x the issues that it was? Anyway, this makes it a must-re-read kind of a book/story. No way did I get everything this first time.The eruption of colors universe wide at the end (again, trying to avoid spoilers here :P) is fun. The philosophical schism in the Guardians is convincing, and the "dark side" implications of the new First Law (of ten) written into the Book of Oa could not be clearer. I'd say anyone that enjoyed Green Lantern: Rebirth should read this book too, leading up to Blackest Night. Reasonable knowledge of all the DC crises thus far and some understanding of Green Lantern mythos are must haves before this tale can be enjoyed...2 of 2 people found the following review helpful. It was in great condition when I got itBy CustomerPart 2 of one of the most iconic green lantern arcs of all time, not just modern comics history. It was in great condition when I got it, beautiful hardcover with hardly a mark on it. The action in this TPB is first rate, as is the art, and it's a seriously important arc because it sets up so much of what GL and the corps has been doing ever since.1 of 1 people found the following review helpful. A Near-Perfect Event BookBy hdefinedSinestro Corps War is far better than it had any right to be, given the lackluster way the Green Lantern relaunch started out. However, after a year of slow builds, this storyline knocks it out of the park, capitalizing on everything established up to this point, and building with every issue up to an even bigger climax. I've never seen an event really grow to such epic proportions from such a humble, sinister introduction.The only thing holding this back from 5 stars is the Green Lantern Corps issues. Patrick Gleason is a fantastic artist, but he's absent for at least half the issues, and the events chronicled by Dave Gibbons really pale to the main event.

Sinestro -- Hal Jordan's former mentor and arch-nemesis -- has gathered an army of soldiers fueled by the fear they instill in others, consisting of Arkillo, Karu-Sil, the Cyborg-Superman, and hundreds more of the most terrifying villains the universe has ever seen! Former Green Lantern Kyle Rayner has been possessed by the entity known as Parallax and now assists the Sinestro Corps in cutting a swath of evil across the universe. Trapped in the depths of the Sinestro Corps' Citadel and face-to-face with the Guardian of Sinestro's army of fear, Hal Jordan must find the will-power to battle these terrible foes. And as one of the Book of Oa's prophecies comes true, the Green Lantern Corps makes a last stand that reveals the reincarnation of one of their fold!
