Robert Venditti : Green Lantern Vol. 6: The Life Equation (The New 52) before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Lantern Vol. 6: The Life Equation (The New 52):

Well yea, unless we get cancelled.By CustomerSince Venditti took over, I've been patient in hopes that the title reaches the lofty heights it held under the command of Geoff Johns. This title starts off with a time jump from the end of the last volume, and these comics are contained in another volume of another series. The story is pretty good, it's nice to have

the new blue guardians back, as well as having Sinestro make his return in this volume. Once again a new threat arises in the form of the new gods, seeking power to destroy Darkseid, and they believe that power to be found in the various lantern rings. Again, the story of the rings being stolen is only mentioned so you'll have to buy other comics in order to read the actual events. Since I've mentioned it twice, that was my least favorite part of this volume, the missing stories. Sure the book itself will tell you it happened, but seeing it is better. Moving forward, the best part of this volume really comes at the end when the Guardians tell Hal that the corp's name has been drug through the mud long enough. Hal does something that has an incredible amount of potential and decides to take Krona's gauntlet and "betray" the corp. Of course the universe will forget everything if the leader is shown to be corrupt...right? Hal Jordan being a bigger renegade than he ever has could be some of the best story telling to come out of this universe and I am excited for the potential this decision has. So you're probably wondering, should I buy this? I say yes, do it if you're a big GL fan. If you're on the fence then maybe you should wait and borrow it from a friend or pick it up at your local library...those still exist right? 0 of 0 people found the following review helpful. On a higher plane of existence, the incredible beings known as the New Gods have waged an eternal war against the cosmic tyrant called Darkseid. Now their quest to break the deadlock and defeat their nemesis has led them to the power rings of the Lanterns. They mean to seize the rings, reforge the emotional spectrum, and unlock the Life Equationa weapon capable of reshaping reality itself. And if the Green Lanterns must be sacrificed, so be it. Hal Jordan may be the commander of the Green Lantern Corpsour universes first line of defensebut he is only human. What hope does a mortal have against an army of gods? Writer ROBERT VENDITTI (THE FLASH) and artist BILLY TAN (New Avengers) pit the DC Universes mightiest, most mind-blowing being against one another in GREEN LANTERN VOL. 6: THE LIFE EQUATION (collects GREEN LANTERN #35-40 and GREEN LANTERN ANNUAL #3), a saga of cosmic combat like none that has ever come before!

Writer Robert Venditti orchestrates [GREEN LANTERN] like a summer blockbuster. IGN Venditti has ensured that his own name will become an important part of [Green Lantern] history. Newsarama The new Green Lantern team is exactly what this universe needed. Exciting, refreshing, and amazingly fun to read.
