By Dylan Riggen This is a great book for the Marvel loving kid who needs to learn their letters! I started reading it every night to my 4 year old son to help with kindergarten prep, and it has helped so much! A month after adding this book to our bed time ritual he knew 50% of the letters and 2 months in he knows them all! It is a sturdy book, with durable cardstock pages, and it dedicates one letter and one superhero per page. It also has a large uppercase letter cutout for the reader to trace. It really is great and I feel like it was our key to learning letters! 0 of 0 people found the following review helpful. Very cool book. My 4 year old reads this quite ... By Bryan Very cool book. Has the little tabs to lift of to see the word but also has a big letter with numbers and arrows to trace with the finger. 0 of 0 people found the following review helpful. Fun and interactive book. fantastic book. We saw this at a store in Disney for more money (of course) and all my kids fought over who was playing with it. Looked it up on while they played, ordered it right then and it arrived in 2 days. The kids love the interactive aspect of tracing the carved out letters with their fingers.
