Even as a "bad guy" she was interesting to read about it these issues on kindle. 0 of 0 people found the following review helpful. Too short By Eric Anthony Galvez I like the direction the story is going, but was expecting more storytelling. Still pretty entertaining though. Looking forward to the next book. 3 of 3 people

This volume is kind of a coming home for Silk. I don't want to give anything away, but I feel like the issues cover a lot of ground in a really short period. They really expand her world. I love Silk but she was totally eclipsed for part of this volume by the amazing cast of people that surround her. For this issue, I don't consider this a bad thing. In the last volume, we were mostly caught up with Silk and the Black Cat and being undercover for SHIELD but this time Silk's world is opening up a little. We already know her two friends from work, who I just adore, but a few more characters are introduced that I hope are here to stay. The volume answers a lot of questions, but then poses new questions as well, as any good continuation should. I hope to see her really get on her own two feet in the future. Some fun little things that I loved: the friends totally geeking out when they had stumbled upon the opportunity, the introduction of Spectro, the whole Negative Zone everything, SHIELD holding up it's end of a bargain, JJJ. I know, he's such a jerk to Peter and Spider-Man but he adores Silk and Cindy Moon. JJJ's nickname for her. It's definitely a volume that has some crucial information for anyone keeping up with her storyline, not filler at all. I look forward to continuing the series!

Cindy Moon, AKA Silk, finally catches a break in her search for her family. But she's in for trouble when the trail leads her to the Negative Zone!!! COLLECTING: SILK 9-14
