**Matt Groening : Simpsons World: The Ultimate Episode Guide, Seasons 1-20** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Simpsons World: The Ultimate Episode Guide, Seasons 1-20:

I think it is great, but a bit outdated By LoneWolf18 On the very big positive side of the book, we get a big guide of the Simpsons episodes, characters and a lot of other things here and there. We get boatloads of quotes, funny images and hilarious sidenotes. Plus, we even have descriptions on the couch gags and Itchy and Scratchy. The negative view is the book is missing seasons 21-26, so it is outdated and the book doesn't cover the Simpsons games and movie, giving us an empty feeling as we read through the book. But still, you will get a big kick out of reading this book if you are a huge Simpsons fan. 0 of 0 people found the following review helpful. Great collector item By KerrPricy for a book was my initial though but it's of very high quality with every page being in color. Great collector item. 1 of 1 people found the following review helpful. Great episode guide By Kmajed Just what I was looking for. Amazing episode guide for many of the Simpsons episodes, it breaks down the episodes in so many ways and gives great information on stuff you may have missed. My copy arrived in great condition.
