a gun how awesome is that. I do enjoy a confusing sci-fi western as the next man and this did not disappoint. Don't read it tired or it will not make a whole lot of sense. Battling across a foreign alien western landscape and BOOM! a Big Gorilla with a gun. i feel I could spoil it but I am not. I loved the read

Lost in a lawless, post-apocalyptic other-world. Good thing your companion is a...Six-Gun Gorilla! Welcome to the Blister -- a bizarre other-world colonized by humans sometime in the 22nd century, which quickly became a hotly-contested source of fertile land and natural resources long ago exhausted on Earth. In this new frontier, a rogue gunslinger and his companion wander across a wilderness in the grips of a civil war, encountering lawlessness, natives, and perversions of civilization in a world at the crossroads between the past and the future. The fact that said gunslinger is a bio-surgically modified silverback gorilla toting a pair of enormous revolvers is neither here nor there. Written by Simon Spurrier (Marvels X-MEN LEGACY, CROSSED WISH YOU WERE HERE), drawn by hot new talent Jeff Stokely (FRAGGLE ROCK, THE REASON FOR DRAGONS), and featuring a cover by Eisner Award-winning artist Ramn Prez (A TALE OF SAND, WOLVERINE THE X-MEN), SIX-GUN GORILLA is a pulpy mash-up of Western weirdness and lo-fi science fiction unlike anything else!
