The plot moves briskly between action and comedy.I bought the kindle version and read the book on an iPad2. There were a few panels that benefited from zooming in but the majority of the book was well formatted for the device. However be aware of the supported platforms as the PC application doesn't support

The two mercenary morons are back and this time they're taking their boisterous brand of brutish bloodshed to the big city. By the time this adventure wraps up they'll battle a den of thieves, a monster fight pit, alleyways of danger, nobility, stupidity, dinner parties, and bloodthirsty faerie folk! Contains Skullkickers #7-11 and the special "Four Tavern Tales" from issue #6.
