In this issue we finally begin to unravel the mystery of Rex and where he really came from. The typical punchy dialog and ridiculous circumstances Rex and Rolf find

themselves can be found again in volume 3. Loved this one, can't wait for the next TPB!0 of 0 people found the following review helpful. A worthy follow-up, great creativity.By Graham BradleyStill a great piece of illustrated humor, if a little less intense than its two predecessors. I do love how the team behind this series isn't afraid to go SUPER weird and act like it's perfectly rational. I will definitely keep reading.0 of 0 people found the following review helpful.
