Bryan Q. Miller : Smallville Season 11 Vol. 1: Guardian before purchasing it in order to gauge whether or not it would be worth my time, and all praised Smallville Season 11 Vol. 1: Guardian:

21 of 22 people found the following review helpful. Smallville is back and better than ever! By VC1988 Smallville first aired on the WB, now CW, when I was 13 years old. From that moment on I was hooked. I spent ten long years watching as farm boy Clark Kent slowly transitioned to the world's greatest hero, Superman. And when Season 10

came to a close I thought the series had as well. It was bittersweet yet saddening. And, like countless other fans, I wanted more. I wanted to see Clark going about his life as Superman. Fortunately, I got my wish. Smallville Season 11 picks up only a few months after the TV series finale and drops you right back into the middle of Clark Kent/Superman's world as he has fully embraced his destiny. But alas, with Superheroes come Supervillains and Lex Luthor is as vile as they come. The memories from all ten seasons and his life previously have been wiped from his memory. Yet, he still maintains the same diabolical, calculating and despicable personality that the Man Of Steel's nemesis has always been known for. Our hero's journey continues! So, if you loved the show make sure to pick this up because once you read it you'll be transported right back into the world of Smallville...and you will believe a man can fly!

By Doane
Of course, it's not the real comics Superman, but I had fun with the further adventures of Smallville. I wish all comics extending TV shows or movies could do as well. Clark comes back six months after the show ended, having defeated Darkseid and Apocalypse. People are beginning to react to the superhuman in their midst. Lex comes back without memories, and full on evil, although he masks it as concern about aliens. Includes Lois Lane, Green Arrow and Chloe. Art is fair for this time in comics.

1 of 1 people found the following review helpful. Nothing Special
By Joseph Adam Davis
When the television show Smallville started, I loved it. I quickly caught up on the seasons once I discovered the show and watched faithfully right up until the end. However, I couldn't help but feel like the show never lived up to its full potential. It was decent when it could have been great. This comic reads the same way. It's not a bad comic. It continues the story of the show in a believable way and adds in elements of the comics the show never did. But it's hardly a great story. If you loved the show right to the end, you'll probably like this. But if you were disappointed by the show, this comic won't save the Smallville series for you.

A New York Times Bestseller!
When we left Clark Kent at the end of Smallville Season 10, he had finally donned the iconic Superman suit and set out to defend Earth from Apokolips. Picking up six months later, Smallville Season 11 explores Clark's understanding of the true power of his Superman identity, its effect on those close to him and its ability to inspire the people of Earth. Smallville Season 11 features Clark as well as fan-favorite characters including Oliver Queen/Green Arrow, Chloe Sullivan-Queen, Lois Lane, Lex Luthor, and General Lane.

About the Author
Bryan Q. Miller is an American television and comic writer most notable for his work on the CW's "Smallville" and DC's "Batgirl."
