**Bryan Q. Miller : Smallville Season 11 Vol. 6: Alien** before purchasing it in order to gage whether or not it would be worth my time, and all praised Smallville Season 11 Vol. 6: Alien:

2 of 2 people found the following review helpful. Clark and Lex, together again.By CustomerIf you have been reading and enjoying this series, there is no reason not to keep reading. This volume will not make much sense if you have not kept up so far since it continues with many of characters and plot points from earlier on in the series.This starts with another alien of unknown origin crashing into Russia. Everyone is very skeptical about this alien, and Superman since

he has now outed himself as an alien. Lex is obviously trying to get ahead of this and see what he can get out of this new alien. On Lex's flight to Russia, Clark Kent joins him so LexCorp can have a journalistic perspective. There is lots of fun that harkens back to beginnings of Smallville with Clark and Lex verbally sparring. Elsewhere Chloe and Lois travel to Gotham. There they run into shenanigans with Batman and Nightwing. There are some good bits with Nightwing and Lois together, and some Chloe/Batman moments. There are also many references to the original source material comics that will make you chuckle if you get them. If you have been liking the series so far, and enjoyed the TV show, there is no reason to not keep going. 1 of 1 people found the following review helpful. Good but too busy  
By P. Ryan Anthony  
I was not wowed by this chapter in the SMALLVILLE saga. It has lots of action and some nice character development, though this latter element is inconsistent. While Clark Kent/Superman is portrayed as he was on the TV series, Lex Luthor is a bit off. Some would say this can be explained by his amnesia, but his grumpy attitude toward Clark during their Russian expedition and his heartless ambitions regarding the Monitor smack more of the DCU version of Lex. Another problem is the piling on of DC characters and elements in quick succession. While I can appreciate the many "Easter eggs" laid throughout, I don't find it wise to introduce so many featured heroes and villains at once. The biggest issue for me with the "Alien" storyline is one that probably wouldn't bother most fans: too much Batman. Put him into the story if you must, but don't make him the co-lead! SMALLVILLE is the story of Superman and must remain so. All my criticisms aside, I am excited about the coming "Crisis." Though I wish the scale of this comic series were a little smaller, keeping it more in line with the budget-conscious TV show, I hope this event is big enough to merit all the buildup. 0 of 0 people found the following review helpful. Worth the read  
By BarClay  
This entry in Smallville Season 11 was acceptable, but not quite as gripping as previous entries. The pairing of Lex Luthor and Clark Kent in the former U.S.S.R. had moments of charm and comedy, but it strained the credibility that Superman could make an appearance in Russia without raising the arch-nemesis' suspicions. Still these comic books are better than many out there. If you liked the TV series, even this one is worth the read.

Superman's secret is out. The world now knows that their greatest hero is not of this Earth. What they don't know is that there are other beings out there who hail from parts unknown-universes unknown. And one of these outsiders has just crash-landed in the Russian wilderness. While Lex Luthor and Clark Kent head to Russia to investigate the appearance of this new Monitor, Superman's allies join Batman and Nightwing as they investigate the death of a man found in a Gotham alley—a man who bears a striking resemblance to Clark! With more Earth-2 refugees popping up and the Monitor's ability to make Superman bleed, one thing is becoming frighteningly clear: The Crisis is coming, and Superman alone may not be powerful enough to stop it! The SMALLVILLE universe continues to expand as TV series writer BRYAN Q. MILLER (BATGIRL) and artist EDGAR SALAZAR (DEATHSTROKE) bring you  
**SMALLVILLE SEASON 11: ALIEN!**

About the Author  
Bryan Q. Miller is an American television and comic writer most notable for his work as Executive Story Editor on the CW Network's Smallville. For DC Comics he has written BATGIRL, TEEN TITANS and currently SMALLVILLE SEASON ELEVEN.
