Peyo, Matt Murray, Yvan Delporte : Smurfs Anthology #3, The (The Smurfs Anthology) before purchasing it in order to gage whether or not it would be worth my time, and all praised Smurfs Anthology #3, The (The Smurfs Anthology):

0 of 0 people found the following review helpful. Nice full size reprinting of an underrated comic book series By Aran Johnson Most people I meet have a very VERY low opinion of the Smurfs, because all they can remember is the Hanna Barbera cartoon of the 80's. These comics predate those cartoons by many years and are in a class all to themselves. The defining attribute of the Smurfs is that they often feature a fairly intricate setup to a long gag-filled plot. There is a lot of great slapstick in these stories and it is definitely worth checking out. There are currently other printings of the Smurf stories, but they are at a reduced size, so can be a bit difficult to read if you are older than 40. These "Anthology" versions of the Smurfs stories preserve the original size of the Smurfs comics (which were the same size as Tintin and Asterix), so make for much more comfortable reading. 1 of 1 people found the following

review helpful. Another Great Anthology for Smurf Lovers! By The Big Hurt I was a huge Smurfs fan growing up, but I never had the graphic novels, I was into the figurines and the cartoon. I've gotten all 3 anthologies so far, and I think this one is the best yet. They all feature wonderful drawings and vibrant coloring, and have a lot of content for the price. I read these with my 6 year old son, and we both find ourselves cracking up sometimes. All the anthologies seem to end with a Johan and Peewit story, and I think this is the best one so far, it has more Smurfs involved. 0 of 1 people found the following review helpful. Five Stars By Yitz the Maven My kids love this book and cant wait until the new one is released

One of Peyo's most iconic smurfs, the Astrosmurf, gets the deluxe Anthology treatment. Fifty years ago, mankind set off into outer space. Now, a smurf sets foot on another planet or does he? Could it possibly be a smurfspiracy to fool Dreamy Smurf into becoming the Astrosmurf? Or has Dreamy Smurf gone where no Smurf has gone before? Also featuring The Smurfs and the Howlibird and The Cursed Land, a Johan and Peewit story appearing here in a U.S. edition for the first time!

About the Author PIERRE CULLIFORD, born in Belgium in 1928, was the cartoonist known as Peyo. After leaving school in Brussels, he looked for a job and found two that caught his eye: dental assistant and illustrator. After arriving 15 minutes late for the dental assistant job, he was left with only one option! Peyo quickly found himself working with some of Belgium's most talented cartoonists, including his lifelong writing partner Yvan Delporte. He eventually got the break he deserved when he started working for Le Journal de Spirou. Johan and Peewit were among his most popular characters. In 1958, The Smurfs made their first appearance and went on to become the world-famous characters we know and love today.
